

PREPARING FOR GREATNESS

INTERNATIONAL PROGRAM

Preparing for Greatness is more than a slogan at GCA. Greatness is not something many achieve. It takes hard work, commitment, focus, and character. Every day in every class, with every student, highly qualified educators teach a rigorous college preparatory, character based curriculum designed to prepare students for the university experience. It is these characteristics that make our program and our graduates highly sought after. College recruiters seek out GCA graduates knowing they will be well prepared and well rounded. Every year, hundreds of graduates enter many of the top universities in the United States. Our college preparatory curriculum, coupled with highly qualified educators and a unique, individualized, college planning program provide a comprehensive program designed to prepare our graduates for success at the university level.

Greatness is defined as a person who has achieved distinction and students who graduate from our program show their distinctiveness every day on the college campus. We hear from college professors and administrators every year about how prepared our students are academically, the confidence they have in their unique talents and abilities, their character, and their ability to influence their world through leadership.

We want your child to have this invaluable experience. Check out the details of our program and start your application today.
